2005 Subject Index

A

Action research, remodeling a clinical ladder: an action research design, 196

Affiliated professionals, an affiliated professional group approach to education, 215

Agency nurse, agency nurse assessment for competency, 158

Anxiety
- a measure of success: nursing students and test anxiety, 55
- nurses' death anxiety, comfort level during communication with patients and families regarding death, and exposure to communication education: a quantitative study, 19

B

Barriers, addressing barriers to cultural competence, 135

Behavioral health restraints, behavioral health restraint: the experience and beliefs of seasoned psychiatric nurses, 236

Book reviews
- Partnering With Patients to Reduce Medical Error, PL Spath (ed), 245
- Patient Safety: Principles and Practice, JF Byers and SV White (eds), 245
- Theory-Directed Nursing Practice (2nd ed), SM Ziegler (ed), 306
- Tube Feeding: Practical Guidelines and Nursing Protocols, P Guenter and M Silkroski, 306

C

Cardiopulmonary resuscitation, pediatric code readiness: practice is the key, 126

Caring, phenomenon of caring: the perspectives of nurse educators, 160

Clinical ladder program, remodeling a clinical ladder: an action research design, 196

Clinical Placement Consortium, clinical placement consortium: where education and practice meet, 267

Clinical rotations, clinical placement consortium: where education and practice meet, 267

Communication
- impact of team building on communication and job satisfaction of nursing staff, 10
- nurses' death anxiety, comfort level during communication with patients and families regarding death, and exposure to communication education: a quantitative study, 19

Competency
- addressing barriers to cultural competence, 135
- agency nurse assessment for competency, 158
- developing clinical competencies/training checklists: when you have to start from scratch, 291
- establishment of a hospital-based simulation skills laboratory, 62
- using games to demonstrate competency, 272
- writing better test items, 6

Computer technology
- E-orientation: a cyber approach to orienting per diem and temporary nurses, 204
- online degrees for nurses: a flexible alternative, 26
- patient education workshop on CD-ROM: an innovative approach for staff education, 43

Continuing education
- addressing barriers to cultural competence, 135
- continuing education needs of currently practicing nurses toward the self-care management of patients with type 2 diabetes, 31
- E-orientation: a cyber approach to orienting per diem and temporary nurses, 204
- impact of a nurse externship program on the transition process from graduate to registered nurse: part II. qualitative findings, 249
- impact of team building on communication and job satisfaction of nursing staff, 10
- a measure of success: nursing students and test anxiety, 55
- nurses' death anxiety, comfort level during communication with patients and families regarding death, and exposure to communication education: a quantitative study, 19
- preceptor continuity in a nurse internship program: the nurse intern's perception, 47
- remodeling a clinical ladder: an action research design, 196
- staffing effectiveness evaluation: a best kept secret for educational needs assessment, 259

use of a writing group to enhance voice and connection among staff nurses, 85
when orientation ends. . .supporting the new nurse who is struggling to succeed, 145
Critical thinking
instant teaching tools, 132
writing better test items, 6
Cultural competence, addressing barriers to cultural competence, 135

D
Death and dying
nurses' death anxiety, comfort level during communication with patients and families regarding death, and exposure to communication education: a quantitative study, 19
preparation and care at the time of death: content of the ELNEC curriculum and teaching strategies, 93
Death anxiety, nurses' death anxiety, comfort level during communication with patients and families regarding death, and exposure to communication education: a quantitative study, 19
Diabetes mellitus, continuing education needs of currently practicing nurses toward the self-care management of patients with type 2 diabetes, 31

E
Education. *See also* Continuing education
an affiliated professional group approach to education, 215
building bridges. . .and strengthening nursing, 1
clinical placement consortium: where education and practice meet, 267
creation of a stepdown nurse internship program, 115
E-orientation: a cyber approach to orienting per diem and temporary nurses, 204
establishment of a hospital-based simulation skills laboratory, 62
a gaming adventure, 37
keeping SARS out: an education program for SARS screeners in one Ontario hospital, 73
a measure of success: nursing students and test anxiety, 55
move to the head of the class: developing staff nurses as teachers, 277
nurses' death anxiety, comfort level during communication with patients and families regarding death, and exposure to communication education: a quantitative study, 19
nursing grand rounds: promoting excellence in nursing, 221
online degrees for nurses: a flexible alternative, 26
patient education workshop on CD-ROM: an innovative approach for staff education, 43
RN refresher courses: hospital-based vs. university-based, 177
success story of an intermediate care area nurse internship program, 152
writing better test items, 6
Emergency care, pediatric code readiness: practice is the key, 126
End-of-life care, preparation and care at the time of death: content of the ELNEC curriculum and teaching strategies, 93
End-of-Life Nursing Education Consortium, preparation and care at the time of death: content of the ELNEC curriculum and teaching strategies, 93
Excellence
destination magnet: charting a course to excellence, 227
nursing grand rounds: promoting excellence in nursing, 221
Externship
impact of a nurse externship program on the transition process from graduate to registered nurse: part I. quantitative findings, 187
impact of a nurse externship program on the transition process from graduate to registered nurse: part II. qualitative findings, 249

F
Fact sheets, evaluation of innovative research-based fact sheets, 171

G
Games/gaming
a gaming adventure, 37
using games to demonstrate competency, 272

H
Heart failure, an affiliated professional group approach to education, 215

I
Instant teaching tools, 82, 132, 244
Intermediate care, success story of an intermediate care area nurse internship program, 152
Internet
E-orientation: a cyber approach to orienting per diem and temporary nurses, 204
online degrees for nurses: a flexible alternative, 26
Internship
creation of a stepdown nurse internship program, 115
preceptor continuity in a nurse internship program: the nurse intern's perception, 47
recruiting licensed staff in mental health, 66
success story of an intermediate care area nurse internship program, 152

J
Job satisfaction, impact of team building on communication and job satisfaction of nursing staff, 10

L
Learning communities, learning communities: the link to recruitment and retention, 103

M
Magnet Recognition Program for Excellence in Nursing Services, destination magnet: charting a course to excellence, 227
Mathematical skills, limited math skills: a prescription for change, 79
Medication errors, limited math skills: a prescription for change, 79

Mental health, recruiting licensed staff in mental health, 66
Mentoring
mentor training in a military nurse corps, 120
when orientation ends. . .supporting the new nurse who is struggling to succeed, 145
Military nursing, mentor training in a military nurse corps, 120
Motivation, instant teaching tools, 82

N
Needs assessment
continuing education needs of currently practicing nurses toward the self-care management of patients with type 2 diabetes, 31
staffing effectiveness evaluation: a best kept secret for educational needs assessment, 259
Nurse educator
developing clinical competencies/training checklists: when you have to start from scratch, 291
nurturing the seeds of learning: a professional development initiative for hospital-based nurse educators, 110
phenomenon of caring: the perspectives of nurse educators, 160
Nurse manager, when orientation ends. . .supporting the new nurse who is struggling to succeed, 145
Nursing grand rounds, nursing grand rounds: promoting excellence in nursing, 221
Nursing students
clinical placement consortium: where education and practice meet, 267
a measure of success: nursing students and test anxiety, 55

O
Oppression, use of a writing group to enhance voice and connection among staff nurses, 85
Orientation
agency nurse assessment for competency, 158
creation of a stepdown nurse internship program, 115
developing clinical competencies/training checklists: when you have to start from scratch, 291
E-orientation: a cyber approach to orienting per diem and temporary nurses, 204
facilitating role transition for new graduate RNs in a semi-rural healthcare setting, 284
a gaming adventure, 37
a measure of success: nursing students and test anxiety, 55
orientee progress meetings, 184
Outcomes
building bridges. . .and strengthening nursing, 1
RN refresher courses: hospital-based vs. university-based, 177

P
Patient education, patient education workshop on CD-ROM: an innovative approach for staff education, 43
Pediatric population, pediatric code readiness: practice is the key, 126
Performance improvement, staffing effectiveness evaluation: a best kept secret for educational needs assessment, 259
Phenomenology, phenomenon of caring: the perspectives of nurse educators, 160
Poster presentation, instant teaching tools, 132
Preceptorship
facilitating role transition for new graduate RNs in a semi-rural healthcare setting, 284
preceptor continuity in a nurse internship program: the nurse intern's perception, 47
recruiting licensed staff in mental health, 66
Professional development
E-orientation: a cyber approach to orienting per diem and temporary nurses, 204
impact of a nurse externship program on the transition process from graduate to registered nurse: part I. quantitative findings, 187
impact of a nurse externship program on the transition process from graduate to registered nurse: part II. qualitative findings, 249
nursing grand rounds: promoting excellence in nursing, 221
nurturing the seeds of learning: a professional development initiative for hospital-based nurse educators, 110
remodeling a clinical ladder: an action research design, 196
Professionalism, impact of a nurse externship program on the transition process from graduate to registered nurse: quantitative findings, 187
Psychiatric nursing, behavioral health restraint: the experience and beliefs of seasoned psychiatric nurses, 236
Public health, keeping SARS out: an education program for SARS screeners in one Ontario hospital, 73

R
Recruitment. *See* Retention and recruitment
Registered nurse
facilitating role transition for new graduate RNs in a semi-rural healthcare setting, 284
impact of a nurse externship program on the transition process from graduate to registered nurse: part I. quantitative findings, 187
impact of a nurse externship program on the transition process from graduate to registered nurse: part II. qualitative findings, 249
RN refresher courses: hospital-based vs. university-based, 177
Research
evaluation of innovative research-based fact sheets, 171
remodeling a clinical ladder: an action research design, 196
Restraints, behavioral health restraint: the experience and beliefs of seasoned psychiatric nurses, 236
Retention and recruitment
building bridges. . .and strengthening nursing, 1
creation of a stepdown nurse internship program, 115
facilitating role transition for new graduate RNs in a semi-rural healthcare setting, 284
impact of a nurse externship program on the transition process from graduate to registered nurse: part I. quantitative findings, 187
impact of a nurse externship program on the transition process from graduate to registered nurse: part II. qualitative findings, 249

impact of team building on communication and job satisfaction of nursing staff, 10
learning communities: the link to recruitment and retention, 103
preceptor continuity in a nurse internship program: the nurse intern's perception, 47
recruiting licensed staff in mental health, 66
RN refresher courses: hospital-based vs. university-based, 177

S
Safety issues, behavioral health restraint: the experience and beliefs of seasoned psychiatric nurses, 236
Safety training, using games to demonstrate competency, 272
SARS (severe acute respiratory syndrome), keeping SARS out: an education program for SARS screeners in one Ontario hospital, 73
Scheduling process, clinical placement consortium; where education and practice meet, 267
Screening, keeping SARS out: an education program for SARS screeners in one Ontario hospital, 73
Self-care management, continuing education needs of currently practicing nurses toward the self-care management of patients with type 2 diabetes, 31
Silencing, use of a writing group to enhance voice and connection among staff nurses, 85
Simulation skills laboratory, establishment of a hospital-based simulation skills laboratory, 62
Socialization, impact of a nurse externship program on the transition process from graduate to registered nurse: quantitative findings, 187
Staff development
addressing barriers to cultural competence, 135
establishment of a hospital-based simulation skills laboratory, 62
impact of team building on communication and job satisfaction of nursing staff, 10
keeping SARS out: an education program for SARS screeners in one Ontario hospital, 73
limited math skills: a prescription for change, 79
nursing grand rounds: promoting excellence in nursing, 221
phenomenon of caring: the perspectives of nurse educators, 160
preceptor continuity in a nurse internship program: the nurse intern's perception, 47
use of a writing group to enhance voice and connection among staff nurses, 85
Staff development story
fabulous education days, 295
orientee progress meetings, 184
Staffing effectiveness evaluation, staffing effectiveness evaluation: a best kept secret for educational needs assessment, 259
Staff retention. *See* Retention and recruitment
Stepdown unit, creation of a stepdown nurse internship program, 115
Support, when orientation ends. . .supporting the new nurse who is struggling to succeed, 145

T
Teacher training, move to the head of the class: developing staff nurses as teachers, 277
Team building, impact of team building on communication and job satisfaction of nursing staff, 10
Testing
a measure of success: nursing students and test anxiety, 55
writing better test items, 6
Transition process
facilitating role transition for new graduate RNs in a semi-rural healthcare setting, 284
impact of a nurse externship program on the transition process from graduate to registered nurse: part I. quantitative findings, 187
impact of a nurse externship program on the transition process from graduate to registered nurse: part II. qualitative findings, 249
move to the head of the class: developing staff nurses as teachers, 277

W
Writing intervention, use of a writing group to enhance voice and connection among staff nurses, 85
